

JOB TITLE: Service Engineer (based in England)

LOCATION: Dungannon, Co. Tyrone

About Kiverco:

At Kiverco we believe in a World where Recycling Plant recovers much more, much more accurately and for much longer. Kiverco is a premium brand business with an international reputation for making the World's Toughest Recycling Plant. We have been focused on making the World more sustainable for thirty years.

You will be joining the Company at an interesting time, as Kiverco has just secured some of our most exciting projects to date and we are in the process of launching a new line of revolutionary machinery.

Our Company has evolved over the years and its growth is a direct result of the hunger for creating new distinctive, bespoke, innovative products to help transform the World's waste. Our obsessive behaviour to constantly evolve our offering has meant that we have also become industry-leading experts in the field of waste processing machinery.

Kiverco delivers high quality solutions with excellent customer service globally.

The person:

We are looking for an experienced Service Engineer to join a market leading company. The aftersales back-up service we provide to our customers is extremely important to us and to provide

this service we need a well-trained, professional and highly motivated Service Engineer. You will have integrity and a fun, can-do attitude which will allow you to fit in with our well-established team. This role involves travel around England.

Main Duties & Responsibilities

- Carry out regular plant inspections as part of our preventative maintenance package
- Be customer focused at all times and provide fast response to any breakdowns
- Work as part of a team to provide our customers with a professional after sales package to include service, repair and maintenance of their recycling plants
- Solve problems at customers sites and provide reports to the Aftersales Manager
- Work with our site installation teams to help to install and commission new equipment when required
- Work in our factory building the plants when not on site

Criteria required:

- Experience working in this role or will have served time as a Heavy Plant Fitter
- Excellent problem-solving skills
- Professional friendly approach and customer-focused at all times
- High level of mechanical, diagnostic and fault-finding skills
- Good understanding of how to fault find in plant electrics, auto electrics, diesel engines, hydraulic and pneumatic systems
- Possess basic welding skills both in MIG and MMA welding
- Capable of working effectively as part of a team but also independently
- Full Clean UK driving licence

Rewards & benefits

- Highly competitive salary
- Overtime at enhanced rate
- Company pension
- Generous Company healthcare provision
- Refer a Friend scheme
- Long Service Awards
- Extra Holiday for your Birthday
- Other employee benefits
