

JOB TITLE: Graduate/Junior Design Engineer

LOCATION: Dungannon, Co. Tyrone

This is an excellent opportunity for an innovative, imaginative and practically minded Graduate/Junior Design Engineer to join an experienced and committed team in a company focused on innovation in an industry with a bright future.

About Kiverco:

At Kiverco we believe in a World where Recycling Plant recovers much more, much more accurately and for much longer. Kiverco is a premium brand business with an international reputation for making the World's Toughest Recycling Plant. We have been focused on making the World more sustainable for thirty years.

You will be joining the Company at an interesting time, as Kiverco has just secured some of our most exciting projects to date and we are in the process of launching a new line of revolutionary machinery.

Our Company has evolved over the years and its growth is a direct result of the hunger for creating new distinctive, bespoke, innovative products to help transform the World's waste. Our obsessive behaviour to constantly evolve our offering has meant that we have also become industry-leading experts in the field of waste processing machinery.

Kiverco delivers high quality solutions with excellent customer service globally.

The person:

Reporting to the Engineering Manager, you will be based within the design engineering team with exposure to key functions of our business. The position will suit a highly motivated and organised individual who can rise to challenges and have a practical hands-on approach. You will have integrity and a fun, can-do attitude which will allow you to fit in with our well-established team.

Main Duties & Responsibilities:

- Detailing engineering drawings for manufacture
- 3D modelling of bespoke machinery and plant
- Visit site to assist with site surveys
- Maintenance of user documentation
- Creation and maintenance of BOMs for manufacture and production

Criteria required:

Essential

- A Degree in Mechanical Engineering or relevant discipline with 1 year related design / development work experience preferably in the Recycling or Quarry and Heavy plant sector (includes placement)
OR
HNC/HND in Mechanical Engineering or relevant discipline (or equivalent) along with minimum of 1 years related work experience in the Recycling or Quarry and Heavy plant sector (includes placement)
- Experience in using 3D design Software – preferably Solidworks
- Excellent planning, organisational and communication skills
- Competent with Microsoft Office packages

Desirable

- Knowledge of 2D drafting software (AutoCAD, Draftsight, or similar)
- Experience working with bespoke machinery
- Some knowledge of manufacturing techniques and processes
- Degree in mechanical design or equivalent

Rewards & benefits:

- Highly competitive salary with benefits package

To apply for this position please send your CV with a cover letter to careers@kiverco.com
