

JOB TITLE: Design Engineer

LOCATION: Dungannon, Co. Tyrone

About Kiverco:

At Kiverco we believe in a World where Recycling Plant recovers much more, much more accurately and for much longer. Kiverco is a premium brand business with an international reputation for making the World's Toughest Recycling Plant. We have been focused on making the World more sustainable for thirty years.

You will be joining the Company at an interesting time, as Kiverco has just secured some of our most exciting projects to date and we are in the process of launching a new line of revolutionary machinery.

Our Company has evolved over the years and its growth is a direct result of the hunger for creating new distinctive, bespoke, innovative products to help transform the World's waste. Our obsessive behaviour to constantly evolve our offering has meant that we have also become industry-leading experts in the field of waste processing machinery.

Kiverco delivers high quality solutions with excellent customer service globally.

The person:

We are looking for an innovative and creative Design Engineer with strong communication and problem-solving skills. You will take on a crucial role in the realization of engineering projects, contributing your expertise to design process and project execution.

Working collaboratively with interdisciplinary teams, you will be responsible for transforming project requirements into practical and efficient design solutions.

Your experience and technical acumen will be essential in guiding projects through all phases, ensuring adherence to quality standards, meeting timelines and managing project budgets effectively.

This role provides an opportunity for you to leverage your engineering proficiency, problem-solving skills and collaborative approach to make significant contributions to project success.

Criteria required:

- A Bachelor's degree in engineering or a related field
- A minimum of 2 year's experience in a similar role
- Proficient in CAD software (Solidworks, AutoCAD etc.)
- Excellent problem-solving and analytical skills
- A strong knowledge of design principles, industry standards and regulations related to the industry
- An ability to work collaboratively in a cross-functional team environment

Desirable Criteria

- A Master's degree in a related field

Rewards & benefits

- Highly competitive salary with benefits package

To apply for this position please send your CV with a cover letter to careers@kiverco.com
